

UNITED STATES BANKRUPTCY COURT SOUTHERN DISTRICT OF FLORIDA

UPDATED NOTICE RE: STATUS OF CLAIMS

The court has now completed its claims conversion program, and all claims registers, including images are now accessible through ECF/PACER.

A large backlog of unprocessed claims still remains due to the CM/ECF conversion and the unprecedented number of cases filed in this court between October 1 and October 16, 2005. The clerk's office is working diligently to bring this backlog current and is also receiving assistance from three other bankruptcy courts. We hope to eliminate the backlog by December 5, 2005.

If you have pending notices of assets or final reports that have not been processed please be patient, as we cannot process these documents until our claims docketing is current.

If you have any questions regarding claims please contact Joe Falzone in Miami, Chris LaCoursiere in Ft. Lauderdale or Cameron Cradic in West Palm Beach or e-mail the CM/ECF help desk at www.cmecf_support@flsb.uscourts.gov.
